

# About Soken Engineering

We are a UK based company, designing, engineering and manufacturing all our own products, providing heat sealing packaging solutions for all company sizes, both in the UK and internationally.

## Over 30 years' experience

Soken has become expert in the field of pack sealing, acquiring a wealth of knowledge and expertise

## Skilled British engineering

Superb design concepts, exceptionally skilled British engineering, attention to quality and detail, all to provide our customers with a high performance product, which lasts.

## Innovative design

Innovation is central to our product development, with the launch of our unique, patented, fully electric heat sealer.

## Bespoke packaging

We can also offer a range of packaging to suit your needs, which work in synergy with our heat sealers. As we know about technical specifications, we can advise you on the best packs for your requirements. If you'd like your own pack design, we can assist you.

# Stand out from the Crowd

If you are looking for something a little more individual to help your business stand out, Soken can organise bespoke packs.

## We can offer:

- Advice on best pack for your requirements
- Individual pack design
- Specialised pack to seal
- Bespoke tooling service available

# PACK, SEAL AND SELL

Innovative heat sealing and packaging machines for the sandwich and food to go market.

## HEAT SEALERS FOR Small Users

---

**Are you a new business with products you're now ready to pack, seal and sell?**

Perhaps you're looking to diversify your product range, but unsure whether to seal in plastic/film or cardboard. Is heat sealing new to you, unfamiliar with sealing temperatures or which is the right sealer for you and your business? Soken can advise, help and guide you to make your sealing simple and easy. With over 30 years of experience and excellent British design, we help you achieve your next step to finding the right sealing solution for you.

**INCLUDES TWO  
YEAR RETURN-  
TO-BASE  
WARRANTY.**

## HEAT SEALERS FOR Medium Producers

---

**Do you need to increase your heat sealing production to respond to bigger orders?**

Perhaps you're looking for a fast sealer able to deliver at an impressive rate, but without adding to your labour costs? Do you need to maintain a good production volume, but want to diversity into sealing other products without the need for another sealer? Are you looking for increased production without taking up space? Soken's mid-range, 4 up heat sealers can seal up to 800 packs per min. We take the pressure off you to deliver faster and apply it to the sealing, with a semi-automatic operation. Stepping up to the next level doesn't need to be harder, in fact, we make it easier for you.

## HEAT SEALERS FOR Large Production

---

**Is your business growing rapidly and struggling to keep up with demand?**

Are you already a high volume user who needs to seal even faster still, but unsure of how to without lots more labour, effort and hassle?

With reliability and quality vital to your performance and business, Soken can deliver on both speed and efficiency, and a lot more too. You can step up and step back and let Soken deliver the performance and confidence you need with high speed, liner automatic sealing solutions.

**SOKEN HS50F**  
Faster semi-automatic, dual line, plastic film heat sealer

**SOKEN HS52C**
