

Tadbik Group

Packaging Solutions Without Limits

Who We Are

Tadbik is a global packaging leader delivering cutting-edge solutions that empower brands worldwide. With over four decades of expertise, we partner with leading manufacturer in the food, beverage, pharma, beauty, and industrial sectors, providing packaging that protects, informs, and inspires.

Our Global Footprint

We operate four state-of-the-art manufacturing sites in Israel and the United States, ensuring efficiency, flexibility, and fast time-to-market. As a trusted partner for global brands, we combine local expertise with international reach.

Our Bussines Line

Tadbik is your one-stop partner for end-to-end packaging solutions. Our broad portfolio includes:

Flexible Packaging

Sustainable, high-performance retort, pouches and films that protect products and enhance shelf presence.

Labels & Sleeves

A wide portfolio of pressure-sensitive labels, shrink sleeves, and IML, with advanced digital printing capabilities

Lids

Pre-cut lids, fresh lids, and lidding films designed to preserve freshness and integrate seamlessly into production lines.

Automation

Custom-built packaging machinery, from single-purpose units to fully automated production lines, tailored to customer needs.

RFID & IoT

Smart labels with integrated RFID technology, enabling efficient supply

Innovation & Sustainability

Sustainability is at the core of what we do. Tadbik develops recyclable and recyclable-ready packaging and partners with customers to advance circular economy goals. Our in-house R&D and technology experts work hand-in-hand with clients to design tailor-made solutions that meet the highest performance and regulatory standards.

Why Tadbik

- Global supplier with local expertise
- Four manufacturing sites for speed, quality, and reliability
- End-to-end packaging solutions under one roof
- Sustainable and recyclable product lines supporting circularity
- Expert technologists and engineers who develop customized solutions

Tadbik – Packaging Innovation. Global Excellence. Sustainable Future.
